

[Pediatric Occupational Therapy Assistant](#)

Are You an **Awesome Occupational Therapy Assistant**? Do you love children and helping families?

Locus Family Centered Therapies, offers a COTA program that is a "best in class" model of how COTAs can serve families. Our practice, founded by an OTD with 35 years of experience across agency, clinic, and private practice, is hiring in the local area. We offer COTAs the opportunity to pursue their passion for helping children while growing in their professional skills. One-on-one mentoring by our founder (who is one of the few OTs in the entire state with a doctorate in OT), combined with discretionary funds for wellness/licensure/CEU credits demonstrates our commitment to helping you become the best COTA possible. Even if you are a new graduate, we may have a role for you on our growing team!

We believe in family-centered therapy, whereby the natural environment is used to help the family unit establish healthy routines without the introduction of a toy bag or prop that cannot be reproduced by the parent when we're not around. Acknowledging the issues these families face and helping them to make sense of the developmental delays their child may be experiencing is what we do daily because we love it!

Mentoring is not just a word for us. We make sure that your supervising OTR goes over your caseload with you frequently and we hold trainings often in-house to provide you with additional support. We're "in your back pocket" when you need a little extra help with a child and his/her support system. Whether you are new to the profession and ready to step away from another/more demanding/less fulfilling practice area, we would love to talk to you! Some of the particulars are listed below, but what we'd really like is for you to send us your resume and a cover letter stating why you are interested in this opportunity. We will follow up immediately to set an appointment to discuss whether this could be a mutual match.

- Our therapists choose the size of their caseload (usually between 10 and 25 cases)
- We have strong enough referral sources that our staff usually chooses what zip codes to serve
- Your schedule is in your own hands; work with the families to create it!
- Self-starters and independent thinkers are welcome
- Compensation ranges from \$33-40/visit; we will discuss the scale in person
- We file all agency and insurance paperwork for you
- We're not a huge practice; so you receive personalized attention!

Job Types: Full-time, Part-time

Pay: \$950.00 - \$1,500.00 per week

COVID-19 considerations:

We provide PPE for our staff and have protocols in place to address the risk of exposure.
